

TMSI Announces New Endorsed Business Partner

TMSI is proud to announce the addition of a new Endorsed Business Partner:

TMSI chooses Endorsed Business Partners that will assist our rural hospitals in achieving their goals while adhering to excellent standards. All Endorsed Business Partners have gone through a thorough vetting process. We hope you will call upon these new partners as well as our existing partners. Please feel free to share your feedback with us as well.

For additional information on these or any of TMSI's Endorsed Business Partners, contact Vicki Pascasio at (512)750-4128 or email vpascasio@torchnet.org.

TORCH Management Services, Inc. (TMSI) announced effective June 1, 2020 the addition of a new endorsed business partner – Specialty Biomedical. Specialty Biomedical is a preferred provider of clinical and diagnostic equipment maintenance services. Whether you are looking for preventive maintenance, repair service or cost-saving alternatives to multiple OEM/ISO service contracts, Specialty Biomedical and their Safeguard program have you covered.

“As an Endorsed Business Partner, we look forward to working with TMSI to provide; comprehensive equipment maintenance solutions, reduce equipment downtime, control equipment service costs, support optimal patient outcomes and provide in-depth documentation to all TORCH members.” said David Pokora, President of Specialty Biomedical.

Specialty Biomedical provides clinical and diagnostic equipment maintenance management services for healthcare and other industries across the country. Founded by David Pokora in 2006, Specialty Biomedical has become well known for its service cost reduction programs, exceptional service, experienced service technicians, prompt professional service, and in-depth documentation.
